

The Foiling Dinghy
Foiling for everyone.

Foiling made better. The Foiling Dinghy is a modern dinghy, which enables you to foil at an affordable price. A bit of dinghy experience is enough to learn foiling very quickly. The complexity is reduced to a minimum since the foils are self-adjusting. Also the boat is very forgiving and easy to launch.

The Foiling Dinghy = the people's foiler.

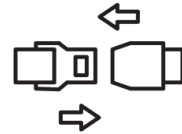

EASY TO FOIL.

Easy to foil and to handle:

- very stable and controlled flights
- reduced complexity: as easy to sail as a Laser
- very forgiving (no hard crashes)
- nothing to adjust while sailing
- self-tacking foil system
- 5min to get ready to sail

SAFE BUT FUN.

Safety first in every wind condition:

- no potential dangers: no standing rigging and no foils to crash into
- wide hull for huge form stability which allows easy launching and stable low riding
- mast with track to lower the sail on the water when needed
- excellent non-grid DECKIT to make sure you stay where you are

DURABLE.

Durable:

- built to resist: robust hull construction which allows you to step everywhere
- strong foils you can even stand on for recovery
- shock absorbing foil and rudder bearings
- easy to maintain

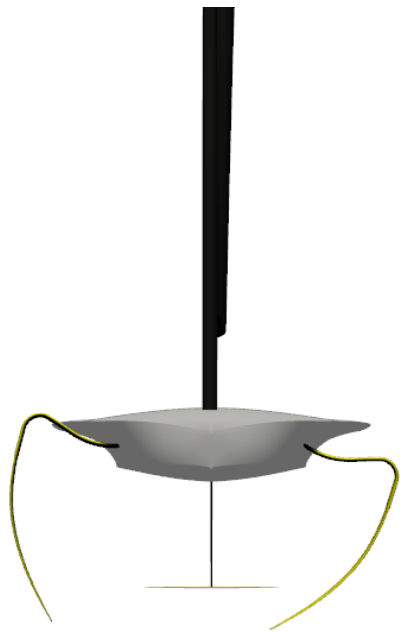

Boat specifications.

Length:	3.85m
Width:	1.58m
Beam with foils exposed:	2.10m
Draft launching:	0.15m
Draft foils exposed:	1.10m
Hull weight:	30kg
Overall weight:	55kg
Sail area:	9.5m ² (standard) or 7.5m ² (youth)
Min. lift off wind speed:	8 knots
Top speed:	25 knots+
Crew weight:	55 to 95kg
Fun factor:	massive
Needed experience:	low
Design category:	D
Ready-to-foil price:	21,700€ incl. VAT
Design & engineering:	Thilo Keller

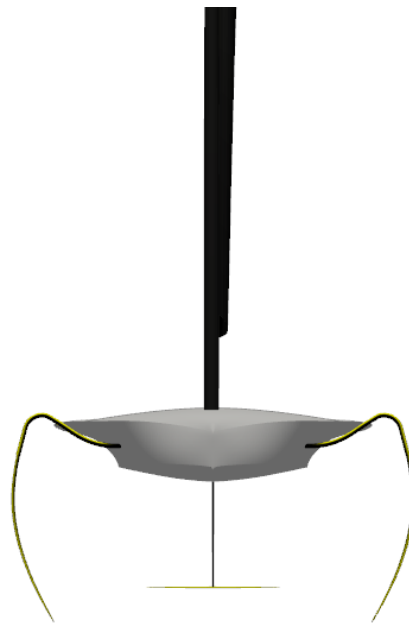

Self-tacking foil system (ACC - Automatic Cant Control).

Foiling mode

starboard tack - lift on the canted/port foil

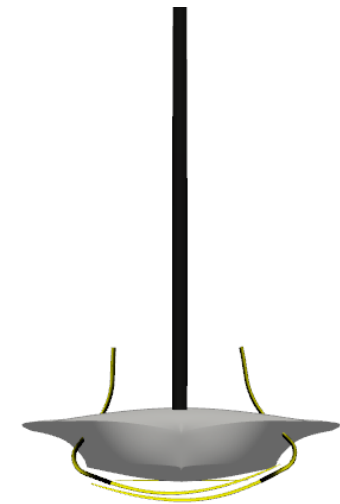

Low-riding mode

no lift - both foils vertical

Foiling mode

port tack - lift on the canted/starboard foil

Launching mode

foils folded underneath the hull and rudder pulled up
